Final chart checklist

1. The title says the finding
2. Both axes: label and unit
3. One message per chart
4. Long labels are readable
5. The main number, said simply

Five checks before a chart goes on a slide.

Before and after

draft	final
title: (none)	**About 1 in 5 products bring 80% of revenue**
x axis: (none)	Revenue (pounds)
1876534.04	about 1.9 million pounds

© 2026 Santasila Bryan Kusno. All rights reserved.

Your finding in three sentences

1	**Answer** what you found	Class A sales stayed steady.
2	**Evidence** the numbers	Each month, class A was close to 80%.
3	**Recommendation** what to do	Keep class A stock safe every month.

Examples only. Write your own.

Say numbers simply

`21.9% of products`	→	**about 1 in 5 products**
`1,876,534.04 pounds`	→	**about 1.9 million pounds**
`84.82% of revenue`	→	**about 85% of revenue**

Exact in the notebook. Simple on the slide.
