Questions like an interview

? **Walk me through your project in 2 minutes.**

? **Why did you remove those rows?**

? **What would you do with more time?**

? **How did you check your numbers?**

Short answers. One number if you can.

Feedback: two and one

Strength

what worked

Strength

what worked

To improve

one thing

Clarity 1-4

Evidence 1-4

Recommendation 1-4

Delivery 1-4

© 2026 Santasila Bryan Kusno. All rights reserved.

What you can do now

1-3

Python basics

variables, lists, loops, functions

4-5

pandas

clean 105,335 rows, groupby, ABC

6

Charts

titles that say the finding

7

SQL, Power BI

the same idea, new tools

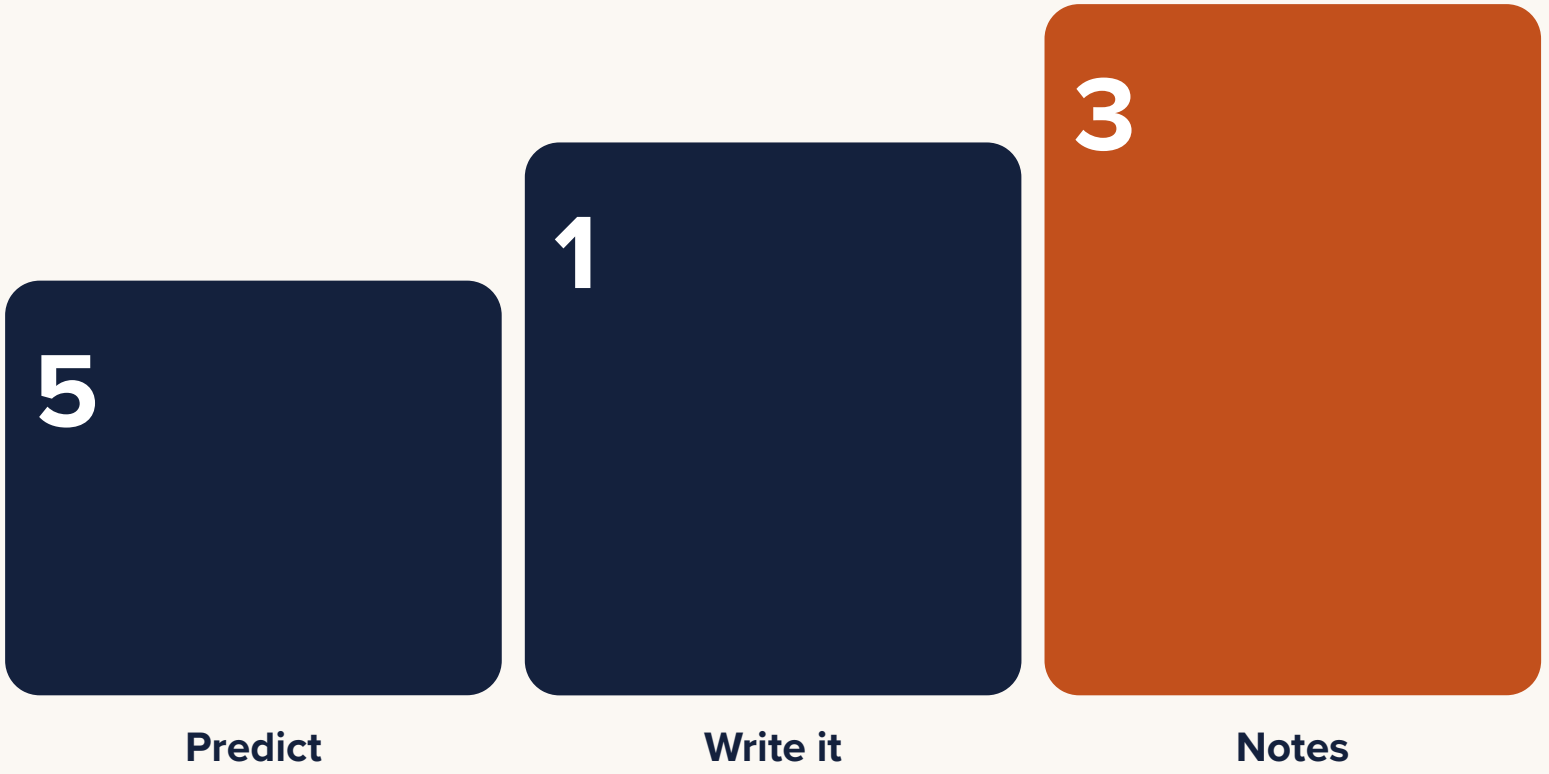

8-10

A real project

question, evidence, GitHub, a talk

What next: January ideas

Power BI
deeper dashboards

SQL
sql-practice.com

VS Code
Python on your laptop

git
the command line

One small thing every week is enough.
